No Room for Weak Tags.

Safety tags built for worksites that demand strength and clarity. They withstand heat, pressure, and tough conditions while keeping information visible and reliable. Strong, clear tags help you stay compliant and protect your team every day.

About Our Safety Tags.

8mm Eyelet Hole

Reinforced metal eyelet for secure, reliable attachment to any equipment.

UV & Tear Resistant

Holds up in sun, rain, and rough handling, readable from first day to last.

Durable Materials

Engineered substrates built for heat, pressure, and the harshest site conditions.

Space to Write What Matters

Name, date, equipment, and reason fields, everything your team needs on site.

Tag It Your Way.

Every tag can be customised to suit your operation. Choose your wording, add your logo, adjust the layout and select with or without a metal eyelet. Available strung or unstrung.

Tearproof Safety Tags.

Made from tearproof, weather resistant synthetic material with 8mm reinforced metal eyelets, our Tearproof Tags are built to last. These tags are ideal for tough site conditions, withstanding the elements and harsh environments where safety is critical.

Key Features:

- 150gsm Synthetic Material
- 8mm Reinforced Eyelet
- Reliable Long Term use in Demanding Environments
- Supplied in Resealable Packs of 100
- 440mm Tiestring

Start Safe or Don't Start at All.

AAA Print Group Pre-Start Books make it easy to check equipment and keep teams safe before work begins. Each checklist follows a logical flow, providing space to record faults, sign off, and take action quickly. Built for everyday use on site, these books support compliance and ensure no step is overlooked.

About Our Pre-Starts.

Durable Binding

Lays flat in use so your team can write comfortably on site, even in tight spaces.

Duplicate Copies

Carbonless copies mean records are captured instantly without extra paperwork.

50

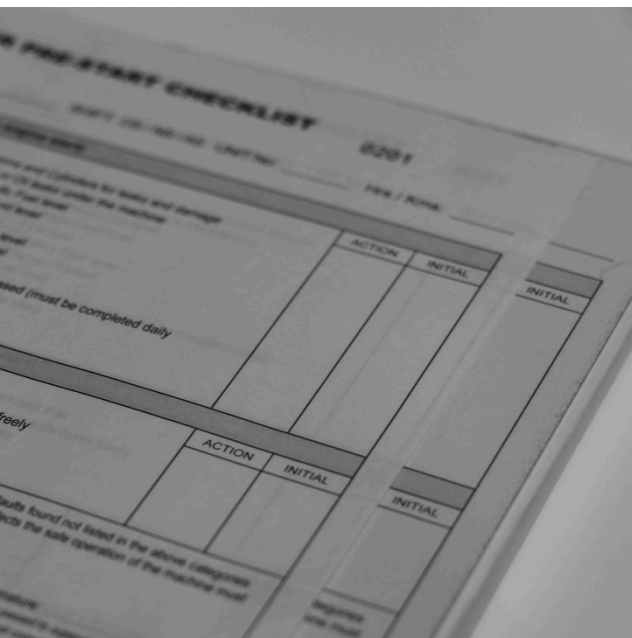

50 Sets per Book

Enough for consistent daily use, with a repair log included in every book.

Record What Matters

Fields for faults, sign off, date, and equipment, everything your team needs to stay compliant.

Specify Your Pre-Start.

Built around your fleet. Specify your machine or vehicle types, add your logo, choose your cover design and field layout. Available with coil or taped spine and sequential numbering for full traceability.

Premium Pre-Start Checklists.

Guide your team through step by step checks with our Premium Pre-Start Books to ensure nothing is overlooked. Each book is built with a strong coil spine that lays flat, making it easy to use on site while recording faults, signing off, and taking action quickly.

Key Features:

- Plastic coil binding which lays flat in use
- Duplicate pages with writing shield
- 50 sets per book with repair log included
- Customisation available

Durable Signs for Serious Sites.

AAA Print Group Safety Signs are built for high traffic sites where visibility matters. From hazard warnings to mandatory PPE reminders, these signs help your team stay alert and compliant across every area of operation. Available in corflute or ACM material and three standard sizes, every sign is designed to withstand the demands of an active worksite.

About Our Safety Signs.

High Visibility Graphics

Bold, clear printing ensures your message is readable from a distance, even in busy or low light conditions.

UV Resistant

Colours and text hold up in the sun without fading, keeping your signage legible for longer.

Weatherproof Construction

Corflute and ACM substrates are built to handle tough outdoor conditions without deteriorating.

Easy to Mount

Lightweight and practical, these signs are simple to install across a wide range of site environments.

Your Site, Your Signage.

Printed to your site requirements. Choose corflute or ACM substrate, specify custom dimensions, and add site specific wording, hazard warnings or PPE requirements. Your branding across every sign.

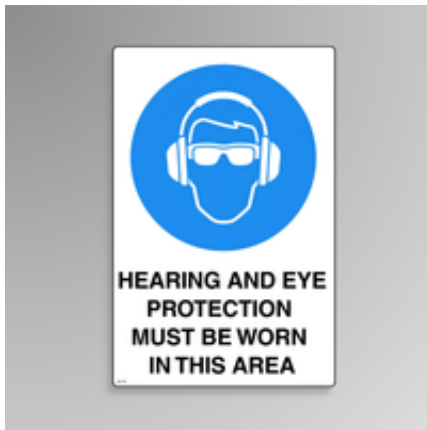

Safety Signage.

Guide your team through critical safety zones with AAA Print Group Safety Signage to ensure nothing is overlooked. Each sign is built with durable materials that withstand the elements, making it easy to communicate hazards, requirements, and protocols clearly across every area of your site.

Key Features:

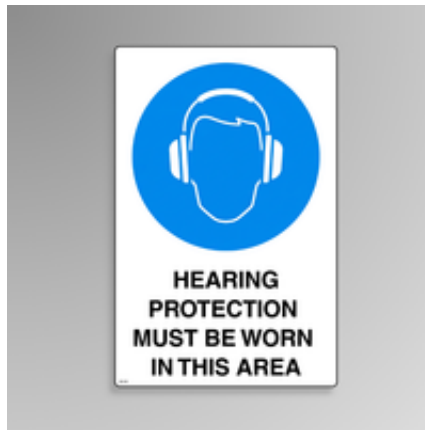

- High visibility graphics and text
- UV resistant for long lasting clarity
- Weatherproof corflute or ACM material
- Available in three standard sizes (225 x 300mm, 300 x 450mm, 400 x 600mm)

Customised to Your Requirements.

Every workplace is different. Your safety products should be too.

Whether you run a single site or multiple locations, we print safety tags, books, signs and decals to your exact requirements. Every product can be customised with your logo, wording and layout so your team has what they need for your specific operation.

All artwork, printing and packing is done in-house at our Canning Vale facility. This means fast turnaround and consistent quality on every order. We work with businesses of all sizes, from small single-site runs through to ongoing supply arrangements, and we keep the process straightforward from first enquiry through to delivery.

Trusted by Industry Leaders.

Since 1976, we have worked with Australian businesses across mining, construction, engineering and transport. Over that time we have built an understanding of what different industries need from their safety products, and we apply that to every order we produce.
